

SPICE & AL.

Spice K2 Lava Red Legal Buds Rasta Weed JWH-018 Herbal Incense

Legal status: sometimes legal, sometimes illegal, depending on the chemical composition of the sample

Active substance: synthetic cannabinoids. Spice & al. are generally a mixture of various herbs or plants which are imbued with synthetically manufactured cannabinoids by the producer and smoked with tobacco.

Main effects: The effects of synthetic cannabinoids mimic those of THC contained in cannabis: relaxation, hilarity, modified perceptions. As the mixture of ingredients varies from sample to sample, the effects can be very different and unpredictable.

Main risks: psychological addiction; elevated risks of physical damage due to unknown ingredients, combined with unknown long term effects; if smoked, elevated risk of respiratory diseases

Harm reduction:

The legal status of synthetic cannabinoids evolves rapidly and varies from country to country.

The ingredient lists are most often incomplete and / or misleading as are the indicated directions for use. There is no quality warranty for this kind of product.

Do not consume when you are not feeling well. Do not drive, do not operate heavy machinery.

If you feel unwell after consuming Spice & al., eat or drink something sweet.
