

The newsletter of TEDI (Trans European Drug Information)

NEWIP | TEDI

1ST TEDI TREND REPORT

First TEDI's trend report

The Trans European Drug Information project (TEDI) is a network of European fieldwork Drug Checking services that share their expertise and data within a European monitoring and information system.

This newsletter represents the launch of **TEDI's first trend report**. Its aim is to present the results of recent data that has been gathered, analysed and compared by four Harm Reduction groups in three countries **for the period January–May 2012**. It also compares the 2012 figures with those gathered by TEDI member organisations in 2011 to assess emerging trends.

Summer Festival Recommendations

The chief substances used during summer festivals continue to be MDMA, amphetamines and cocaine. The levels of purity, the numbers of adulterants and their percentages varies greatly for each of these substances.

The Drug Checking harm reduction groups were able to come up with numerous recommendations from the gathered data. These recommendations are disseminated via this newsletter in an effort to create safer festivals!

TEDI member's activities

TEDI members & Boom Festival

TEDI members will be present at the Boom 2012 Festival in Idanha-a-Nova, Portugal, from 28 July to 4 August to engage in Drug Checking activities. TEDI members will be working together with a team of European volunteers who specialise in harm reduction at parties and festivals.

ReDUse_12 Conference. New Aspects and Developments in Recreational Drug Use

On the occasion of checkit's 15th anniversary.

16 November 2012. Billrothhaus Conference Facility, Vienna, Austria
For more information go to this [link](#).

European Party Friends Night

The NEWIP partners are currently organising the first European Party Friends Night for Saturday November 24. Please visit www.partyfriendsnight.eu in the coming weeks to follow the development of this campaign across Europe.
