

## NEWS FROM THE PARTY + NETWORK

The PARTY+ Network launched its **new website** [www.partyplus.eu](http://www.partyplus.eu) last September. This website gives information about the services provided by PARTY+, the possibility to subscribe to our newsletter (to recommend to your partners !) and integrates a map of Europe with all actual labels and venues. The idea is to promote those clubs to travelling partygoers and to have a complete tool explaining our aims, values and services.

The PARTY+ Network offers a service of “**Expert Visits**” to meet anybody interested in implementing a safer nightlife label and to explain the Label process. There are experts able to speak German, French, Spanish, Catalan or English. According to needs and taking into account the local specificities, based on previous exchanges and on field observations, the expert gives support in starting the implementation process. It could include: needs assessment, partnership building, strategy, implementation, communication and evaluation. For more information, please contact David Leclercq at [david.leclercq@modusvivendi-be.org](mailto:david.leclercq@modusvivendi-be.org).

The PARTY+ Network will be present at the **Club Health conference** in Prague, Czech Republic. We hope to meet you there to exchange some information and to propose you some tools of the network such as our printed version of “10 things you should know for implementing a Safer Nightlife Label”, a guideline based on the experiences of Labels and Charters in Catalonia (Q de Festa!), Paris (Fêtez Clairs), Switzerland (Safer Clubbing) and Belgium (Quality Nights).

**10 Things you should know for implementing a Safer Nightlife Label**

(Fêtez Clairs), Switzerland

(Safer Clubbing) and Belgium (Quality Nights).

## NEWS FROM THE PARTY + MEMBERS

One of the biggest night clubs in Paris is joining the Fêtez Clairs charter : La Machine du Moulin Rouge.

**Fêtez Clairs volunteers are creating their own association** in order to become autonomous in developing the peer education approach within the project.

The Fêtez Clairs team has successfully experimented **3 urban chill outs** in the streets of Paris. This new tool will be developed on a regular basis in the future.

The steady development of the Fêtez Clairs project is facing problems in terms of coordination and human resources. Currently a consultation is carried out among the partners in order to improve these issues.

Fêtez Clairs is associated with organisations from the party scenes to develop a campaign raising partygoers' awareness on their behaviour as regards to the well-being of their friends, the venues' staff, the venues' neighbours, etc.

Fêtez Clairs drafted a guideline called "**I am a citizen partygoer**".

More information, list of venues and locations on [www.fetez-clairs.org](http://www.fetez-clairs.org)

In the last months, Q de festa! has been presenting the project to some of the most important clubs in Barcelona! Some of them are already working to be part of the Q de festa! project.

In Tarragona, the city with more Q de festa! venues so far, Komando NitsQ (a very well settled group of peer volunteers) has been sponsored by the cinema director Jesús Monllaó and the musician Marc Parrot, both really well known artists in Catalonia. Marc Parrot was gladly surprised about this project, and stated: "*young people themselves are the ones concerned about their health and the safety of their peers and friends, and they offer their nightlife time with others to help, when it is required*".

Komando NitsQ and Q de festa! Tarragona is getting more and more known amongst all kind of people in Tarragona, and this is good news for the nightlife wellbeing of the city.

More information, list of venues, locations and services on [www.qdefesta.cat](http://www.qdefesta.cat).

**Quality Nights is now counting 26 certified venues !** The label is now developed in the city of Mons and such a success would not have been possible without the local partners of the project.

In October **a big event with a subversive name took place in Brussels.** The aims of this action were to promote the provided services but also to invite the public to think about planning their parties (for example, choosing alternative ways to go back home). Quality Nights also focused on the **importance of hydration** through a visual campaign and coupons making the public remember to ask for free water in the certified venues.

More information, list of venues, locations and services on [www.qualitynights.be](http://www.qualitynights.be)

Safer Clubbing has put the **new strategy** as mentioned in the last newsletter into action:

we intensified our collaboration with other associations of the Music culture and can therefore increase our lobbying for national issues in Switzerland. We regard this step as important to also increase the number of our members. So far we were not able to intensify our marketing towards new regions/clubs due to lack of resources but we will do so in the coming months.

Safer Clubbing has successfully realized an **alcohol prevention campaign** with the support of the Swiss National Program of Alcohol Prevention.

Please visit our new website [www.safer-clubbing.ch](http://www.safer-clubbing.ch). Unfortunately this site is not yet available in English but we are trying to find some financial support to do this as quickly as possible.

---

All the best,

The PARTY + team and partners
